(Typescript, React, ArcGIS JS API)

Full Stack Developer
Remote

DIGIMONKEYS.COM
2021 - Present

Unity Developer
Remote

MOBIL TITANS
2019 - 2020

I was responsible for porting Car Trader Simulator to mobile platforms.

Projects

My website
ⓞ GKaszewski/gabrielkaszewski_rs

My personal website built with Rust and loco.rs. I went with Rust because I was running out of memory on my VPS and my older website was using Django which was using a lot of memory.

Main features:
- Home page with my resume and contact information.
- Projects page with my projects.
- Data storage (my mini cloud storage).

(Rust, loco.rs, Docker)

FleetCompass
https://fleetcompass.pl

SaaS for managing the fleet of vehicles.

It is a full stack application, backend is using Django, the web app is in React and mobile app is powered by Capacitor.

Skills

Programming Languages	**Python**, **Typescript**, Javascript, C#, C++, Rust
Frameworks	**React**, **Django**, Angular, FastAPI, Qt, TailwindCSS
Database	**PostgreSQL**, PostGIS
Other	**Docker**, Kubernetes, Azure, GCP, Nginx, Git, Microsoft Visual Studio
